

His Excellency Dr Robert Abela
Prime Minister of Malta
Office of the Prime Minister
Auberge de Castille
Valletta VLT 106, Malta

Belgium, 1 June 2026

Dear Prime Minister Abela,

Please accept my sincere congratulations on your electoral victory.

Over recent years, Malta has distinguished itself as one of Europe's most forward-looking maritime nations. Under your leadership, the country has not merely embraced the decarbonization agenda, it has helped shape it.

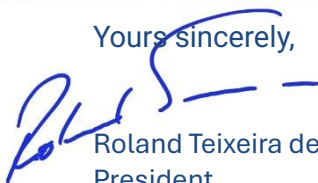

Through the deployment of Onshore Power Supply infrastructure, innovative approaches to energy supply for shipping, and a broader vision linking ports, energy and sustainability, Malta has consistently demonstrated that meaningful progress is achieved through action.

At a time when many speak about the energy transition, Malta has shown that determined leadership can turn ambition into tangible results. The investments made in port electrification and the integration of shipping into the clean energy ecosystem have positioned Malta among the European pioneers advancing cleaner, smarter and more resilient maritime infrastructure.

These achievements not only benefit Malta and its citizens but also provide inspiration for ports and governments across Europe seeking practical pathways toward decarbonization, energy security and economic competitiveness.

On behalf of the European Onshore Power Supply Association (EOPSA), I wish you every success in your new mandate and I look forward to continuing our collaboration and to building on the remarkable progress Malta has achieved in maritime decarbonization.

Yours sincerely,

Roland Teixeira de Mattos
President
EOPSA, European Onshore Power Supply Association
